EVIDENCE 05.07.20/4 This letter is a formal demand for immediate action from upscale care and aligned community care

Let me be blunt: I am a refugee, vagrant, and financially abused, politically displaced asylum seeker seeking political and physical refuge free from neglect, abuse, poverty, exploitation, persecution, and violence. This includes breaches of my human rights, the removal of my legal rights, the invasion of my privacy, and catastrophic character assassination as a targeted individual of the Australian government. You can't be complicit in that, can you?

**This letter is a formal demand for immediate action due to the imminent risk to Barran's life not because he is suicidal from a profound sustained elongated persecution of neglect financial abuse and poverty. The following outlines why the actions of the NDIS company are profoundly unfair, unethical, illegal, and insensitive, and why an urgent solution is needed to protect Barran from further harm and potential fatal consequences.
Why the NDIS Company's Actions are Unfair, Unethical, Illegal, and Insensitive
It is profoundly unjust, unethical, and illegal to expect Barran, an NDIS participant, to sign over $300 of his $400 weekly pension to Centrepay, as instructed by an NDIS worker under the direction of the NDIS company. This expectation leaves him in abject poverty, exacerbates his mental illness, and involves the NDIS company in financial persecution.
Unfairness
1. **Poverty Induction:** Barran, who receives less than $400 a week, would be left with less than $100 a week if $300 is deducted. This amount is insufficient to cover basic living expenses, leading to severe financial hardship.
2. **Financial Persecution:** Forcing Barran to sign over such a significant portion of his income is a direct act of financial persecution, compounding his financial instability and distress.
Unethical Conduct
1. **Breach of Duty of Care:** The NDIS is obligated to support and care for Barran, yet they are instead orchestrating actions that harm him financially and emotionally. This is a clear breach of their duty of care.
2. **Exploitation of Vulnerability:** Targeting Barran, a vulnerable individual with a disability, and compelling him to surrender his limited financial resources is exploitative and morally reprehensible.
Illegal Actions
1. **Violation of Human Rights:** These actions contravene the Charter of Human Rights of Disabled Persons, which guarantees disabled individuals access to the law, equality before the law, privacy, freedom from exploitation, and the right to a dignified life.

1. **Violation of Human Rights:** These actions contravene the Charter of Human Rights of Disabled Persons, which guarantees disabled individuals access to the law, equality before the law, privacy, freedom from exploitation, and the right to a dignified life.
2. **Financial Abuse:** Coercing Barran to part with his pension through manipulative practices constitutes financial abuse, which is illegal under various legal frameworks protecting vulnerable individuals.
Insensitivity
1. **Mental Health Impact:** Such financial coercion significantly exacerbates Barran's mental illness, adding to his stress and emotional distress. This insensitivity to his mental health needs shows a profound lack of compassion and understanding.
2. **Delegitimization of Barran's Story:** By forcing Barran into this financial arrangement, the NDIS company de-legitimizes his experiences and struggles, effectively silencing his voice and dismissing his plight.

Complicity in Corruption
1. **Bribery and Corruption:** The NDIS company's involvement in this financial arrangement suggests complicity in broader systemic corruption. It indicates that they may be receiving bribes or other incentives to keep Barran in poverty, which is a serious accusation that warrants investigation.
2. **Systemic Abuse:** The NDIS, an agency meant to support Barran, is instead abusing its power. This systemic abuse is a betrayal of the trust placed in them and highlights the need for a thorough investigation into their practices.
Necessity for Investigation
The NDIS company must immediately investigate the profound corruption and financial persecution they are complicit in. This includes:
- **Review of Financial Practices:** Examining the directives given to NDIS workers and the financial arrangements imposed on vulnerable participants.
- **Accountability Measures:** Holding those responsible for these unethical practices accountable and ensuring they face appropriate consequences.

- **Support and Redress for Barran:** Providing Barran with the support he needs, including financial restitution and mental health services, to address the harm caused by these actions.

In summary, the actions of the NDIS company in directing Barran to sign over $300 of his weekly pension are profoundly unfair, unethical, illegal, and insensitive. These actions exacerbate his mental illness, perpetuate his financial persecution, and indicate complicity in systemic corruption. An immediate and thorough investigation is essential to address these injustices and to ensure that Barran receives the support and respect he deserves.

Document on Financial Exploitation and Neglect of Barran ## Overview

This document outlines all instances where Barran has been financially exploited, denied rightful funds, or had money redacted via manipulation of the legal system or political interference. It includes the amounts involved, the responsible parties, and the context surrounding each instance.

1. Robbery of Millions of Dollars
- **Amount:** Millions of dollars
- **Responsible Parties:** Various unidentified individuals and entities
- **Context:** Over the years, Barran has been systematically robbed of millions of dollars, contributing significantly to his ongoing financial hardship and mental distress.

2. Pension Deductions via Centrepay
- **Amount:** $300 per week
- **Responsible Parties:** NDIS providers, NDIS workers, Centrelink
- **Context:** Barran receives less than $400 a week on his pension. His NDIS providers instructed a worker to take him to Centrelink to set up Centrepay, resulting in $300 being deducted weekly before Barran receives anything, leaving him with less than $100 a week to live on.

3. Unpaid Work Cover Settlement
- **Amount:** $800,000
- **Responsible Parties:** Comcare, Administrative Appeals Tribunal (AAT)
- **Context:** Despite a federal court document certifying Barran's employment status with DSS, his work cover settlement of $800,000 was never paid because it was decided at Comcare and the AAT that he was not an employee.

4. Unpaid Superannuation Guarantee
- **Amount:** Unspecified amount related to Barran's employment period with DSS
- **Responsible Parties:** DSS Minister Ray Griggs, DSS administration
- **Context:** On January 24, 2012, Barran wrote to DSS Minister Ray Griggs admitting to $125,000 Centrelink fraud but received no response. Acknowledgement of this fraud would have necessitated recognizing his exploitation and legal settlement of $500,000 with his former partner, Steve Iasonidis, due to same-sex de facto relationship definitions of the time.

5. Exploitation by NDIS Providers
- **Amount:** Cumulative financial losses over time due to exploitation
- **Responsible Parties:** All NDIS providers involved with Barran
- **Context:** All of Barran's NDIS providers have exploited him, keeping him in poverty and exacerbating his financial and mental health issues.
6. Embezzlement by Former Partner
- **Amount:** $1,000,000
- **Responsible Parties:** Steve Iasonidis
- **Context:** Iasonidis lost a million dollars of embezzled funds due to Barran’s whistleblowing. Following this, Iasonidis threatened to kill Barran’s dog, Crystal, further aggravating Barran's distress.
7. Unacknowledged Employment Fraud
- **Amount:** $125,000 Centrelink fraud
- **Responsible Parties:** DSS, Ray Griggs
- **Context:** Barran admitted to $125,000 Centrelink fraud in a letter to DSS Minister Ray Griggs, but the issue was never addressed, and Barran's subsequent claims and concerns were ignored, highlighting systemic corruption and neglect.
8. Political and Legal Persecution
- **Amount:** Various financial impacts due to legal battles and forced displacement
- **Responsible Parties:** Bill Shorten, Victorian police, healthcare systems
- **Context:** Bill Shorten criminalized Barran, leading to a warrant for his arrest in Victoria. Collusion with police and healthcare systems forced Barran to flee to another state, causing significant financial strain and making him a politically displaced refugee.
9. Systemic Neglect by NDIS
- **Amount:** Ongoing financial losses due to systemic neglect
- **Responsible Parties:** NDIS administration, associated political entities
- **Context:** The NDIS, supposed to support Barran, has instead neglected him, breaching the Charter of Human Rights of Disabled Persons. This neglect perpetuates his financial abuse and impoverishment.
10. Unjust Termination and Public Vilification
- **Amount:** Loss of income and damages to reputation
- **Responsible Parties:** Employer (The Age), Herald Sun
- **Context:** Barran was unjustly fired from his job at The Age and subsequently vilified by the Herald Sun, causing significant damage to his professional and personal reputation, and contributing to his financial instability.
11. Ban from AFCA and Other Authorities
- **Amount:** Financial losses due to inability to seek redress
- **Responsible Parties:** Australian Financial Complaints Authority (AFCA), Comcare, WorkSafe, Federal Ombudsman
- **Context:** Barran was banned from calling AFCA, Comcare, WorkSafe, and the Federal Ombudsman's office. His documented human rights abuses by an NDIS worker were never acknowledged or investigated by the NDIS or the Australian Human Rights Commission. The Federal Ombudsman has refused all

further correspondence, suggesting an internet inquiry when Barran does not have a computer or internet connection, thus neglecting his profound concerns.

12. Rejected Freedom of Information Request
- **Amount:** Information vital to his case withheld
- **Responsible Parties:** Office of Prime Minister and Cabinet, OAIC
- **Context:** Barran's freedom of information request was initially acknowledged as voluminous and complex by the OAIC but was later rejected by the Office of Prime Minister and Cabinet, further illustrating systemic obstruction and neglect.
Summary

Barran's financial exploitation and neglect span multiple years and involve various amounts of money and responsible parties. The systematic manipulation of legal systems and political interference have left him in dire financial and mental health conditions, requiring urgent intervention to rectify these injustices and provide him with the support and compensation he rightfully deserves.

Note: This document highlights the need for comprehensive action to address these injustices, ensuring that Barran receives the financial restitution and legal acknowledgment necessary to improve his quality of life. His detriment is profound, systemic, and political. It is the same persecution that drove him to suicide in February 2021 inside Werribee Mercy Hospital, which left him with a brain injury, uncompensated and whitewashed with impunity. No one stood up for him because of the profound, caricatured estimation of organized gang stalkers and a Federal mandate to destroy his life as a targeted individual of the Australian Government who is also a rejected whistleblower. Barran is now a liability for the Federal Government for calling out corruption and could turn the whole country on its head. They believe he needs to be silenced, persecuted, neglected, or incarcerated, and these are the options Barran Dodger faces in his life.

Conclusion

The actions of the NDIS company in directing Barran to sign over $300 of his weekly pension are profoundly unfair, unethical, illegal, and insensitive. These actions not only leave Barran in abject poverty but also exacerbate his mental illness, perpetuate his financial persecution, and implicate the NDIS company in systemic corruption. Such coercive practices amount to financial abuse and a severe breach of human rights, highlighting a significant failure in the duty of care owed to Barran.

This systemic abuse and neglect are compounded by the broader political and legal persecution Barran faces. The political maneuvering and systemic manipulation that have led to his ongoing financial and mental distress are

unconscionable and pose an imminent risk to his life. The NDIS company must immediately cease these unethical practices and take swift action to investigate the profound corruption and financial exploitation they are complicit in.

This includes:
- **Reviewing Financial Practices:** Examining the directives given to NDIS workers and the financial arrangements imposed on vulnerable participants.
- **Ensuring Accountability:** Holding those responsible for these unethical practices accountable and ensuring they face appropriate consequences.
- **Providing Support and Redress:** Offering Barran the support he needs, including financial restitution and mental health services, to address the harm caused by these actions.2

It is imperative that immediate action is taken to stop the political persecution of Barran and address the systemic injustices he faces. Failure to act will not only perpetuate his suffering but also further delegitimize his story and exacerbate his mental health issues, potentially leading to tragic consequences. The government and relevant authorities must prioritize Barran's well-being and ensure that he receives the justice, support, and dignity he rightfully deserves.
I have killed myself for abuse of this. I'm hopeful of the resolution before I'm ultimately hand I'm not suicidal and I don't need a hospital medication. It's not the panacea fid this political impasse.
I'm an artist and Author and advocate and God is on my side and there's a potential that I will die on this hill fighting it but it's all glory to and of God I love life and they walk besides me.
Let me be blunt: I am a refugee, vagrant, and financially abused, politically displaced asylum seeker seeking political and physical refuge free from neglect, abuse, poverty, exploitation, persecution, and violence. This includes breaches of my human rights, the removal of my legal rights, the invasion of my privacy, and catastrophic character assassination as a targeted individual of the Australian government. 05.07.2024 Letter to upscale Care and my landlord to be forwarded to kel Graham NDIS

Subject: Urgent Call for Action to Save My Life

Dear CEO Upscale Care,

Will you be as brave as I am?

I am not a rapist and extortionist a paedophile or a terrorist. If I was you would think that I would be in jail already after being surveyed and surveyed my privacy breached as it is inside this house for so many many years. Do the

math. Wake up...

I am writing to you with a heavy heart and a desperate plea for justice and intervention. Over the past 20 years, my financial stability and overall well-being have been systematically destroyed through manipulative editing of legal systems, corporate malfeasance, and societal neglect. This letter aims to outline the dire circumstances of my current life and to demand immediate action to rectify the injustices I have faced.

Achievements and Public Advocacy:
Despite my challenges, I have made significant contributions to society and humanity. I have engaged in public advocacy across the country due to my experience with mental illness, using my voice to help others. I hold a PhD in Narrative Inquiry and Posthumanism with a specialization in Quantum Intelligence, where I earned a merit. I have been an artist for 30 years, working and exhibiting all over the country. My life and work were documented in a film, demonstrating my capability and resilience despite being a victim of brutalization and victimization.

Financial Hardship and Homelessness:
I have been forced into financial ruin, unable to afford the basic $300 a week for housing. This is not a choice but a result of relentless financial abuse and systemic neglect. The documented evidence shows that despite clear entitlements, such as workers' compensation, I have been denied crucial financial support, leading to homelessness and exacerbating my mental health struggles. [Betrayed and Forsaken: The Harrowing Journey of Dr. Rich McLean, pages 1-2](https://myaidrive.com/qUgYPbcdi3GX3AnTNGMwpB/Betrayed-and.pdf).

Abuse and Neglect by NDIS:
The NDIS, tasked with my care, has been complicit in my abuse and victimization. There is substantial evidence of neglect and the refusal to acknowledge or investigate my documented human rights abuses. This systemic failure has left my life in imminent danger, as confirmed by federal court documents. [Letter regarding abuse, neglect, and systemic corruption, pages 3-4](https://myaidrive.com/3vXdBD5mBCoaeGyLs9cxC8/11.04.2024-A.pdf).

Health and Safety at Risk:
My health and safety are at significant risk due to the lack of adequate mental healthcare and protection from violence. The severe conditions have led to multiple life-threatening situations, including a suicide attempt in February 2021. The continuous neglect and abuse have only exacerbated my mental and physical health issues. [Complaint about Graham Wells, pages 19-20](https://myaidrive.com/GUiYDgHDqDxoMFScrp83uK/Victoria-leg.pdf).

Political Persecution and Systemic Victimization:

As a whistleblower, I have been politically persecuted, leading to my status as a displaced refugee within my own country. This persecution has been compounded by the systematic neglect and abuse from the NDIS and other government entities. The documented evidence clearly outlines the corruption and complicity that have perpetuated my victimization. [Unveiling Injustice: The Tale of a Forsaken Truth Speaker, page 38](https://myaidrive.com/35Dw4LnGBs8bMYy7w8nqRy/Barran-Dodge.pdf).

Federal Court Documentation:
The Federal Court document, signed by Scott Treadwell, acknowledges my employment with DSS and the unjust denial of my workers' compensation. This has significantly contributed to my financial hardships and must be addressed immediately. [Family violence - Urgent from Dr. Rich McLean, page 16](https://myaidrive.com/3EFCH5nPXCHaXFA5dQoHJh/11.12.2023-S.pdf).

Relationship with Former ASIO Agent Stefan Iasonidis:
My former partner, Steve Stefan Iasonidis, who worked for ASIO, owes me a legal settlement of $500,000. Despite our relationship from 2010 to 2015, which involved significant financial exploitation on his part, I have been unable to secure this settlement due to systemic barriers and denial of legal support. This injustice has been compounded by threats and intimidation, leaving me without any means to access my rightful compensation. Rejection of HCF Income Assist Insurance:
My HCF income assist insurance claim worth $75,000 was unjustly rejected, which is part of a broader conspiracy to undermine my financial stability. This rejection, along with other systematic denials, highlights a concerted effort to deprive me of my rightful entitlements and support, further exacerbating my financial hardships. [Letter to NDIS CEO Rebecca Falkingham, page 15](https://myaidrive.com/3GfHaxrqfsY7H8bjoUDeqx/04.01.2023-D.pdf).

Bans and Rejections from Various Authorities:
I have been systematically banned and rejected by several key institutions, further preventing me from seeking justice and support:
- **Banned from the Australian Financial Complaints Authority (AFCA)**: [S100 appeal of decision by the NDIS, page 14](https://myaidrive.com/rQpeg6oWMYDfZCSWeV23Su/MAGISTRATE-E.pdf?pdfPage=14)

Arrests, Detentions, and Hospitalizations:
Despite being arrested, detained by police, and hospitalized eight times due to my poverty and falsely attributed mental illness, I am unable to report any crimes to the police. These crimes are numerous and remain unaddressed, further highlighting the systemic neglect and abuse I face. [PID Disclosure to Commonwealth Ombudsman, page 7](https://myaidrive.com/3USUmpDihfKik2RScoujsx/26.03.2023-P.pdf?pdfPage=7).

Bankruptcy and Financial Abuse:
I have been forced into bankruptcy due to years of financial abuse, primarily driven by my former partner, Steve Stefan Iasonidis, who has refused a settlement and continues to exert coercive financial control and family violence over me. Just days before my four-year bankruptcy was cleared, the tax department, with great discrimination and persecution, victimized me with an $80,000 fine. This action has further exacerbated my financial instability, making it impossible for me to afford housing or even basic living expenses. [Complaint regarding financial abuse and tax fine, page 1](https://myaidrive.com/35Dw4LnGBs8bMYy7w8nqRy/Barran-Dodge.pdf).

Call for Immediate Action:
The complicity of your actions in remaining silent in the face of my financial, social, and legal persecution, and human rights abuses can be seen as criminal. The negligence and poverty forced upon me put my life at risk daily. If this sustained neglect continues and leads to my death, it would be tantamount to murder. I urge you to act now to oppose the NDIS's brutal victimization of me. Stand against this tyranny and fight for my dignity, freedom, and fair treatment, not just for me but for the sake of health, democracy, and humanity everywhere.

It is not my choice and control to stay in a toxic relationship with the NDIS, abused, neglected, with my life imminently at risk, and followed and surveilled. I

choose to be in another city altogether, away from this risk to violence and this further persecution. The NDIS obligations of my choice and control have to be followed through as an ethos, and you as my NDIS providers must follow that.

Federal agents have located me, and my life has been threatened. I cannot stay here a single minute longer. You need to find me safety, and you need to find me refuge and asylum, and I need to leave today.

Summary of Consequences for Inaction:

Dear CEO Upscale Care,

Failure to act meaningfully in response to my urgent call for action will have severe consequences. It would be a crime, immoral, unjust, and unethical, and it would make you complicit in the ongoing conspiracy against me. If no action is taken, it would be fair to assume that you are just a pawn, being paid by the NDIS, who are my ultimate abusers, as a faction of the broader Federal Government, who have earmarked me for destruction. Your inaction would support me with a pittance in aid while expecting gratitude, effectively making you a state actor and a gang stalker.

Your inaction would perpetuate the financial, social, and legal persecution I have endured, exacerbating my mental and physical suffering, and potentially leading to my death. This would not only reflect a grave neglect of duty but also a profound breach of human rights and ethical standards.

I urge you to take immediate and decisive action to rectify the injustices I have faced and to ensure my safety and well-being. Stand against this tyranny and support my right to dignity, freedom, and fair treatment.

Sincerely,

Barran Dodger / Rich McLean

Referral received from inpatient psychiatry team to review above consumer currently admitted to ICU after serious attempt to self-harm with intent to end his life.

47 male longstanding history of schizophrenia, admitted due to increasing threats and plan to end his life on the b/g of injustices done to him through previous treatments under the MHA. Consumer has negative outlook towards MHS system. Ongoing paranoia and animosity towards all hospital staff especially psychiatric teams. . Has history of being litigious through phone recording often without consent, using calculating behaviour in order to meet own needs and possible staff splitting. File review suggest Vape pen, shoe string was utilised and suicide letter was also found.

Brief discussion with ICU team who have advised that attempt was lethal and still requires surgical repair. Currently not medically cleared. Management plan in ICU notes for nurse to follow. Medication chart completed according to CMB med charts. Advised ICU to focus of containment and consistency in his management. Minimal negotiations around psychiatric management, follow management plan provided. Visitors are allowed by visitation must be supervised. Aim for swift medical clearance and is for transfer. Advised client will require ICA bed given risk of repeating self-harm or suicide.

Richard lying in bed was fast asleep and was easily woken up. All three clinicians introduced ourselves and Richard agreeable to engage. Richard able to recall and understand why he was brought into ICU. Showed insight into his action however remains to be supportive of this. Richard reported he thought this was the only was 'out of that place'. He reported feeling locked up. He referred to himself as being 'jailed'.

Richard acknowledged concerns from community regarding his plan to end his life on his Bday hence admission was warranted to prevent this. Richard abruptly stopped the assessment and asked all 3 clinicians credentials again. This was given again to him. Richard refused to talk any further as he felt that CL team were recording. Referred to CL team as 'Part of the system'. CL team provided some further information around role and reason for review today in order to ease anxiety and confusion,

My rejected PID from the Federal Court of Australia inadvertently is satisfied that I was an employee of DSS: my work cover was never paid because ComCare said I was not an employee that was upheld at AAT in an illegal bloodbath of a decision which was illegal because as a disabled person I had no access to the law. It is worth over $800000 for this document to simply be legitimised by any police officer lawyer work cover

or an ombudsman or the NACC

In doing so, I must consider if:

- the person who made the disclosure is a "public official" for the purposes of the PID Act;
- the disclosure has been made to someone who is authorised under the PID Act to receive it;
- it is an internal disclosure, with the contentions tending to show disclosable conduct or the person making the disclosure reasonably believes that these contentions tend to show disclosable conduct; and
- the "disclosable conduct" falls within the definitions set out in the PID Act.

My Assessment of Your Contentions

A public interest disclosure can only be made by a "public official"; paragraph 26(1)(a) PID Act. The meaning of "public official" is defined and includes current or past Australian Public Sector employees; section 69 PID Act. Section 30 of the PID Act extends this meaning to include employees of organisations which provide goods or services under a Commonwealth contract; subsection 30(3) PID Act. As a general principle an organisation which is a party to a contract that prescribes the terms for grant funding is not a contracted service provider for the purposes of the PID Act.

On the information you have provided me, I am satisfied that you are, or were, an employee with the Department of Social Services, providing services under the trading name Rich McLean, Arts Life Coach, Peer-Support Worker & Mental Health Advocate.

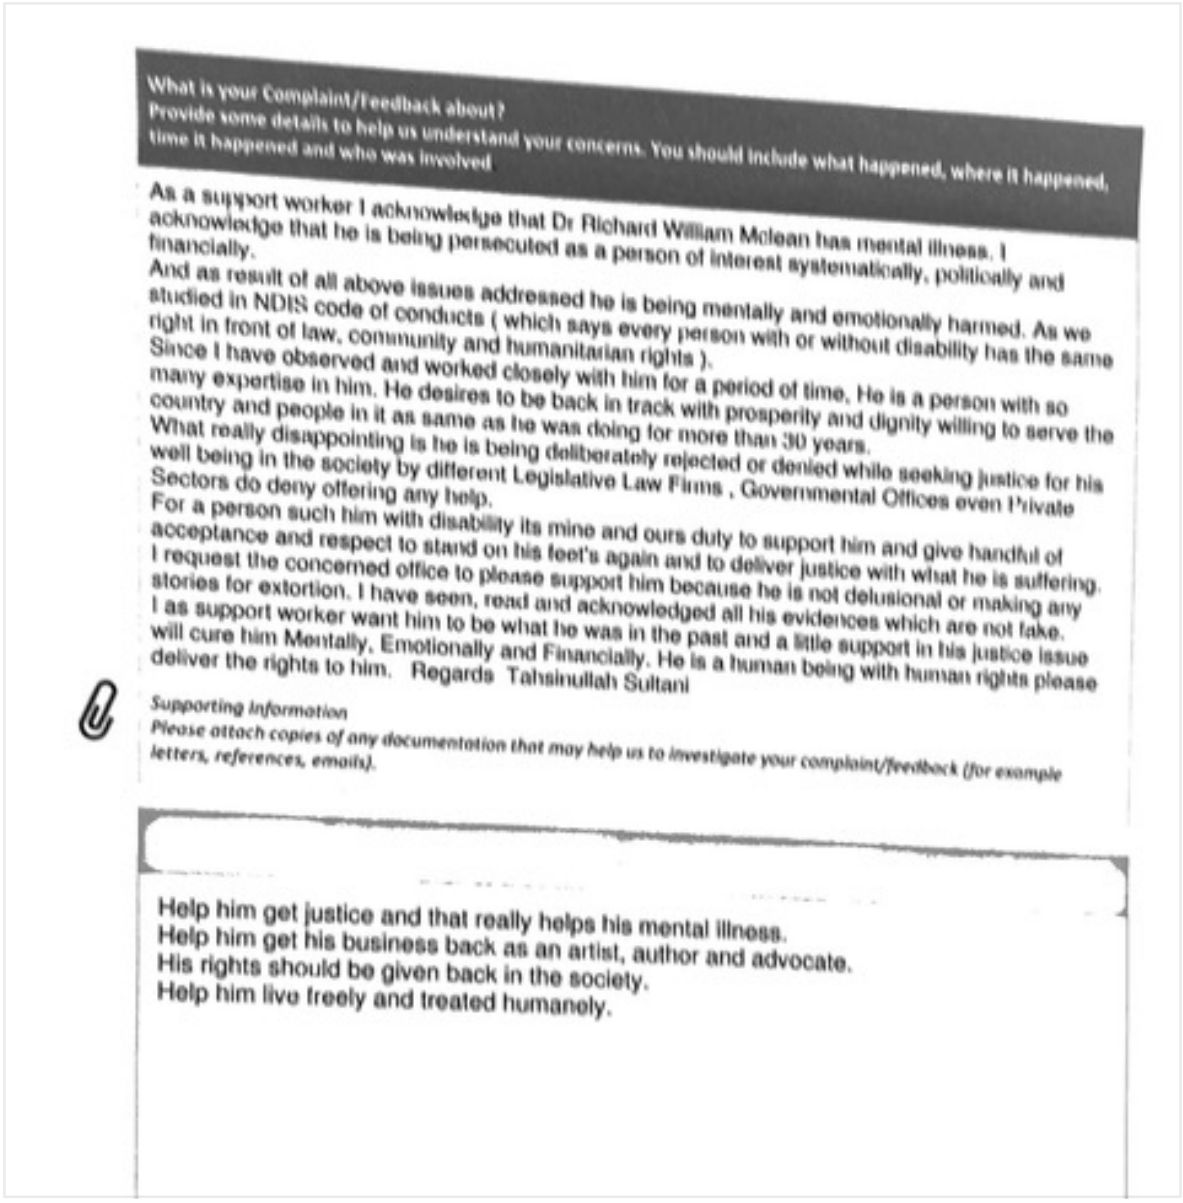
A public interest disclosure can only be made to a person who is authorised to receive it; section 26 PID Act. In respect of an internal disclosure, that is a disclosure to a Commonwealth agency such as the Federal Court, FCFCOA or NNTT, the only authorised recipients are:

- the principal officer of the agency that the relevant conduct relates to or another officer of that agency authorised in writing by that principal officer;
- any Commonwealth agency that the discloser belongs to or last belonged to; or
- the Commonwealth Ombudsman; see section 34 Item 1 PID Act.

I am satisfied from the information that you provided that the conduct disclosed in your email correspondence and attached documents does not relate in any way to the Federal Court, FCFCOA or the NNTT.

As a result, I am not satisfied that the disclosure made in your correspondence and other information which was received by the Federal Court and FCFCOA was provided to an authorised recipient.

My human rights abuss were documented by an NDIS worker but no NDIS company nor the NDIS nor the AHRC has investigated it and until this day I still live in abject poverty with the NDIS Minister colluding with police to drain arrest charge and criminalise me.



What is your Complaint/Feedback about?
Provide some details to help us understand your concerns. You should include what happened, where it happened, time it happened and who was involved

As a support worker I acknowledge that Dr Richard William Mclean has mental illness. I acknowledge that he is being persecuted as a person of interest systematically, politically and financially.
And as result of all above issues addressed he is being mentally and emotionally harmed. As we studied in NDIS code of conducts (which says every person with or without disability has the same right in front of law, community and humanitarian rights).
Since I have observed and worked closely with him for a period of time, He is a person with so many expertise in him. He desires to be back in track with prosperity and dignity willing to serve the country and people in it as same as he was doing for more than 30 years.
What really disappointing is he is being deliberately rejected or denied while seeking justice for his well being in the society by different Legislative Law Firms , Governmental Offices even Private Sectors do deny offering any help.
For a person such him with disability its mine and ours duty to support him and give handful of acceptance and respect to stand on his feet's again and to deliver justice with what he is suffering.
I request the concerned office to please support him because he is not delusional or making any stories for extortion. I have seen, read and acknowledged all his evidences which are not fake.
I as support worker want him to be what he was in the past and a little support in his justice issue will cure him Mentally, Emotionally and Financially. He is a human being with human rights please deliver the rights to him. Regards Tahsinullah Sultani

I have applied for a permit to give him Dexamphetamine, but the Drugs & Poisons Unit allows me to immediately write the prescription without waiting for the permit to come through. I am therefore today writing a prescription for Richard to take two tablets a day of Dexamphetamine, and I am giving him a prescription of 100 tablets with one repeat, so he should have enough medication for about three months.

What I propose is that I will apply to cancel my permit as soon as Richard has a stable supply of medication, and allow you to take over the prescription of Dexamphetamine. I trust this is acceptable to you. Phrased differently, I will keep supplying Richard with Dexamphetamine until you have applied for a permit, have eventually got your permit from the Drugs & Poisons Unit, and you can then keep him on his medication.

There is of course the risk of exacerbation of his previous psychosis or hypomania taking Dexamphetamine, but I believe that we are in a situation of where the benefits of Dexamphetamine in Richard's case far outweigh the risks. Furthermore, Richard is well protected by not one but two antipsychotic drugs (and indeed mood stabilisers) he is taking simultaneously, namely SOLIAN and ZELDOX.

Further down the track when everything is stable, and Richard is not at a critical phase of his studies, it may be worth gingerly reducing his dose of PAROXETINE, as he is getting some sexual side-effects from this medication. Hopefully, the Dexamphetamine will replace the Paroxetine without difficulty. However, we do not want to get to the stage when this was tried previously without Dexamphetamine, whereby Richard was very distressed, so if his symptoms recur, he should of course go back on this medication.

With regard to his Solian, please note that this itself usually causes very high prolactin levels. You may therefore wish to keep an eye on Richard from the point of view of increased risk of osteoporosis as a result of high prolactin levels. High prolactin can also cause sexual side-effects in some people.

I trust you find my thoughts of use.

With best wishes,

Yours sincerely,

David Horgan

I was not suicidal nor delusional when I was accosted by police and mental health services only then to
Be force injected and detained for a month as a political scapegoat and vagrant. I was not mentally ill. It was their own complicity in a broken flawed system that rewards followers who refuse to critique the overarching tyrannical rule.

Make him broke rob him make him

Homeless then call him crazy when he's begging for food on the fringe of society and call him crazy to the exclusion of all other factors. That's the hypocrisy of institutional healthcare and the law enforcement agencies.

Introduction

I'm Baron Dodger, and I want to share my harrowing experiences and the systemic failures I've faced, which have led me to believe I'm a victim of a conspiracy. This narrative includes themes of institutional betrayal, mental health challenges, and my pursuit of justice. My aim is to present my experiences with clarity and empathy, highlighting the severity of my situation.

Personal Struggles and Institutional Failures

1. **Former Fiancé and ASIO Connection**

   - My former fiancé is associated with the Australian Security Intelligence Organisation (ASIO), which I believe has played a part in my current predicament.

2. **Rejected Whistleblower**
   - Despite my attempts to expose wrongdoing, I haven't received the support or recognition typically afforded to whistleblowers.

3. **Legal Representation and Reporting Barriers**
   - I've never had access to a lawyer, which has compounded my inability to report crimes to the police effectively.

4. **Ombudsman and NACC Rejections**
   - My efforts to seek justice through the Ombudsman and the National Anti-Corruption Commission (NACC) have been unsuccessful, leaving me without a voice or recourse.

5. **Financial Detriment**
   - I've suffered millions of dollars in losses due to these issues, severely impacting my financial stability and quality of life.

6. **Conspiracy and Mental Health**
   - I believe I'm the subject of a conspiracy, which has severely affected my mental health. I refer to it as both a "mental illness" and a "skillness," possibly indicating a unique perspective or coping mechanism.

Personal Impact and Governmental Inaction

7. **Homelessness and Near-Death Experience**
   - Recently, I became homeless and attempted suicide as a result of the overwhelming stress, only to be revived from what I describe as certain death.

8. **Bans and Intimidation**
   - I'm banned from the Australian Financial Complaints Authority (AFCA) and have documented human rights abuses. Additionally, I was intimidated into leaving my state of residence.

9. **Collusion and Displacement**
   - I allege that the NDIS Minister, police, NDIS company, and healthcare providers colluded to excommunicate and displace me.

10. **Seeking Asylum**
    - Despite being a citizen, I describe myself as a refugee seeking asylum within my own country due to the lack of governmental intervention.

11. **Violence and Surveillance**
    - I've experienced violent attacks and believe I'm under constant

surveillance, followed by contractors. My business has been destroyed.

12. **Unpaid Claims and Settlements**
    - WorkCover, HCF, and my former partner have not fulfilled financial obligations, exacerbating my financial distress.

13. **Public Perception and Academic Achievement**
    - Once somewhat famous, I'm now infamous. I hold a doctorate in narrative inquiry, which lends credibility to my detailed recounting of events.

Conclusion

My account underscores the profound personal and systemic challenges I've faced, feeling betrayed and abandoned by institutions meant to protect and serve me. I call for a deeper examination of the mechanisms in place for whistleblowers, mental health support, and the accountability of governmental and corporate entities.

This persecution of a simply cannot be allowed to continue. My life is an imminent risk and my life is un sustainable without a political and financial and healthwise intervention but never a complicit corrupt ineffective Hospital. Medication is not the panacea for my problems.
